Cooper's Opera Thoups .- We are truly glad to nuounce to our readers that they will on to-morrow (Tuesday) night have another opportunity of caring Miss Annie Milner sing and Mr. H Cooper perform on the violin. They were ere some weeks ago, but did not draw such audi-

ences as they deserved. We have not had many such vocalists in our city as Miss Milner, and have hut few such violinists as Cooper. They will give us an operatic performance at the Mozart fall to-morrow night in the shape of a miscellaneons concert, to be followed by L Elisier D' Amour. Three other performances on the three following nights will be all we can have of this excellent troupe, and we bespeak for them large and appreciative audiences. Those who love good music should go to hear them every night, and we guarantee they will not reget it.

THE PRINT SAFE YET. - The cold of Friday night did not destroy the fruit. In Pewee Valley the thermometer was one and a half degrees below the freezing point, but the fruit was found, upon examination the uext day, to be uninjured. We hope that March will behave itself, and not quit being a spring month and turn fruit-killer. His namesake, of old, slew men and fought gods, and scorned the piddling business of warring with the buds and blossoms of fruit trees.

RARRY, THE HORSE TAMER .- Prof. W. H. Rarey, the celebrated horse tamer who has created such a sensation in Europe and America, will deliver a for the exchange business. Bland will be a good lecture in the south room of the Masonic Temple Wednesday evening. As a matter of course there are many in the city who want to see and hear a man who exercises such mastery over the noble horse, whose vicious wildness renders him useless, until the Professor teaches him how to behave himself

Lowe's Farewell to his Family.

We have said that Thomas S. Lowe had a presentment that his difficulty with Cicero Maxwell would lead to his own death. The narrative he prepared a few days before his death, and which we published Saturday morning, just as he left it, indicates this premonition. In addition to this, heady of Hon. Mike Walsh was found lying that having been kept noder that impression that having been kept noder that many found lying that having been kept noder that having been kept noder the impression that as he wanted to see the child, would result in the formation of some gloomy impression in her mind. Brought down in a carriage on a bright, beautiful day, the little girl passed, in a few moments from the clear sunlight into a vaulted room, with bare, white-washed walls and a brick floor. A tirst the joy of seeing her father engrossed her attention, but soon the strange appearance of things excited her childish wonder. In one corner she found a rack containing a few old muskets helonging to the jail, and now super ceded by the more efficient revolvers with which the guards are all armed, in another corner was a privace of for alexim, another corner was a narrow cot for sleeping, a proper looking affair than her father's servants have; and then outside the windows there was a row of iron bars; and, altogether, she was evidently at a loss to know what to make of her father's surrounding-but fully convinced that it was all very queer. She wanted to know why her father did not come home, and was told that he had a great deal to do, and could not leave it at present, then she asked if he was not going with mamma and Laura to New York in the morning, and was answered that he could not have at present, but hoped to see his little daughter again soon -A funded questions, such as a puzzled and excited the affair, and it is supposed that the Coroner's inquest will settle the question, whether the deceased came to his death by violence or accidentally.

The body still lies in the Station House, where thas been viewed by numerous friends of deceased.

Two short weeks ago Democracy in Louisville was rampant and boisterous. To-day it is crestfallen and quiet. What has produced the change? Secretly its members worked for weeks, organizing and collecting funds with which to surprise us. They paid up taxes by hundreds, and only one week remained for our party to perform their labor in. It seemed impossible to the Democrats, that in so brief a period their efforts could be reudered fruttless; but they reckoned without their host. The "Grand Secretary," in gratitude for many past favors, was compelled to give them some return. A meeting of prominent men was called by him on Saturday night, 5th March, the danger of longer delay palpably manifested, and immediate steps were taken to rectify the evil. Mr. Duncan was appointed commander-in-chief, and liberal supplies of the "sinews of war" placed at his disposal.—Lou. Journal.

How very kind of this "meeting o prominent men." Who shall any longer say that Republies are ungrateful? Doubtless these good Samaritans, while pouring this balm into his burts, were not unmindful of how he had fallen among thieves and been stripped of five hundred dollars, for the restoration of which all his begging secret circulars proved unavailing. They must have remembered too, the distressingly contemptuous manner iu which he was treated by the Oppositionists of the 22d of Feb. Convention, and intended this as a salve to his wounded self

"All bail, then, to the chief who in triumph advances.' Come out you "erestfallen and quiet" Democrats of Louisville - ground your arms and submit to the will of the conquerer. Under the the father of the untruth and the gross impostor. circumstances, your opponents think this is as little as you can be expected to do.

To other rare qualities the "Commander-inehief" adds a keen appreciation of the maxim that "the great art of commanding is to take a fair share of the work, ' for we are informed that he tabored night and day for a whole week making voters, a task which "no other persou in the State would probably have been found to perform."-From this great zeal and untiring energy immense effects are expected to arise. Nothing less than a stunning victory in this city in April, and another "stunner" throughout the State in August. Who knows but that this appointment may be the eause of the election of Joshua F. Bell?

"Consider every beginning, how small it is and feeble, Ganges and the rolling Mississippl apring from brooks among the mountains," etc., etc. What quintessence of folly it was, though, for

the Opposition party to overlook the merits of the Commander-in-Chief in favor in Joshua F. Bell' Had they avoided this egregious blunder, vietory might have been within their reach, and that "stunner" in August been nonnreasonable expectation.

Had be been chosen to lead the Opposition throughout the State, what Napoleonic combinations we should have had for the approaching campaign' He would have been as full of projects for the defeat of the Democracy as an egg is full of meat, or an Illinois swamp of tadpoles. Confined to a narrower sphere, however, his operations will only be the more destructive. The thundering charges of the magnificent Murat, even, will be eclipsed by the resist less onset of the "Commander-in-Chief" as he eomes erashing down on the dispirited and disheartened Democracy of Louisville. What, then, is left for them to do on theday of battie, "erest-fallen and quiet," as they already are, but to throw down their arms and cry, "suave qui peut" as the gallant Corporal Grand Secretary and Commander-in-Chief Duncan rides them down, all the while snorting forth his slogan, "Here I come, God Almighty d-n my sonl, look out."

Guthrie and the Next Presidency The best evidence of the prospects of the Hon James Guthrie, for the Presidential campaign of 1860, is that the theme is upon so many tongues. The Democratic press in his native State seems to be an unit for him, since no editor has taken grounds against him, while nearly every one of them has come out boldiy, and unequivocally, and warmly for him. There is no longer a doubt that the people of Kentucky are for bim, and that he will go into the Charleston convention with the Democracy of his native State to back him in one unbroken phalanx. The tone of the press shows this, the talk of the people confirms it, and the letters we have, from different parts of the State,

place the thing beyond a doubt in our mind. "Rambler," the correspondent of the Boston Post, whom we take for the witty, talented, and sociable poet, John G. Saxe, from his mention of an introduction we gave him to Mr. Guthrie in March the 4th, to the Post, has the following to Cases, particularly adapted for the use of steamsay of Guthrie and other matters here:

The "Courier," once a Whig newspaper, but of late years a thorough Democratic journal, "goes in" for Mr. Ex-Secretary Guthrie, as its first choice for the next Presidency. A large bodied and sound headed man is Mr. Guthrie—an able financier and practical statesman, as everybody knows who remembers his brilliant success as Treasurer during the administration of General Pierce. "Let me introduce you," said (softo voce) my handsome friend Durrett, of the Courier, "lo the next President of the United States;" whereupon I shook hands with the stalwart statesman of Kentucky. To the prophecy contained in the words of my friend, I could only answer in the safe" Quien sabe?" of the Castilians. What can any man say of any political vaticination in these days, but "who knows?" Speculation is certainly as bootless as it is harmless. As an eccentric Vermonter once said in a siwilar crisis, "It's a good time to hark!" Let us wait a spell. The Journal shows no lack of the characteristic and various ability which has made it famous; but, un-

Journal shows no lack of the ema acterise and various ability which has made it famous; but, unluckily, like a young barister, it has no "cause." Its "occupation." in a polical point of view, went out with the Whig party. Since then it has found nothing bigger or better to do than to serve the "Know Nothings," and ligure as the "Plug-Ugly" organ of the Southwest. It is not wonderful that it wearies of the service and now earnest-ly urges the formation of a new party—a sort of Whig-American-Republican organization, based wing-American-Republican organization, based on a coalition of Southern Know Nothings with Northern Abolitionists of the more moderate sort. Botts' New York speech (which the Journal pub-lishes entire with the failest indorsement) contains the platform—if we may call such a chaos of loose and rather rotten lumber by so architectur-

Benton's Abridgement. This great and valuable work has now reached the tenth volume. The work complete will consist of fifteen volumes, so that two-thirds of it are now in the hands of the public.

The volume before us embraces the debates of the twentieth Congress from the year 1828 to 1830, and the first session of the the twenty-first Concame before the National Legislature, and Mr. the masses-we write this article to give a no- Benton has selected and condensed the most valuable debates thereon. Great men said great things in Congress in those times, and the volume before us is a mirror in which some of the greatest may be seen.

The publishing house of D. Appleton & Co. are doing themselves an honor, and the nation a service in the publication of this mammoth work. It is well printed, well bonud, and well done in every particular. It is a work which will cause the name of the author, the Hou. Thomas II. Benton, to live longer than anything else with which that great name was connected in life, not even ex-

cepting his masterly Thirty Years View. Everybody who has not already secured this book and who is able to bny should possess it as quick as possible. No library is complete without it, and no politician can do without it or the originals from which it is compiled, which are both too bulky and too costly for general use. The abridgement, in lifteen neat volumes, will contain the cream of many unwieldy folios which would east a small fortune for a poor man. It is for sale here by F. A. Crump, Fourth street

The person who informed the Conrier that the tax collectors' drawers were broken open and a large number of their signed receipts abstracted, must have intended it as a joke upon the credulity of the editors. There is not the slightest foundation for such a report, as neither collector was in the habit of leaving signed receipts in his drawer, and no such breaking open has ever occurred. curred.

The informant of the Courier wilfully stated an untrnih, or has been greatly imposed upon. Lou.

Mr. McLeland, the collector of the Westertove. Commauder of the faithful-what more district, himself told us that his drawer was broken open, one night last week, and a number of blank receipts abstracted. We never said any thing about signed receipts. The midnight work of the Grand Secretary made so many blanks in anything else. If, therefore, "the informant of

OLDHAM COUNTY .- The following letter is from a sterling Democrat in Oldham. Col. Speer, whose name is mentioned in it, is one of the best and most popular men in the county, and we cor dially indorse every word said in his behalf. If nominated he will make a big race, and a faithful and efficient legislator, in which capacity he has had experience.

NEAR FLOYDSBURG, OLDHAM Co., Ky.

Elitors Louisville Courier: As the time is
fest approaching when we will have to make a
selection for some Democrat to make the race for
a seat in the next Legisla.ure, in looking over the county I see no one more deserving of that posi-tiou than Col. James M. Speer. He is a first rate Democrat and as elever a gentleman as lives in the county. It was bim that made the race for the county. It was bim that made the race for the Legislature in the memorable year 1855. When the Know Nothings were sweeping everything before them in Kentucky, he was called on by the Democracy of Oldham to make the race, and he did so, and by his exertions and the exertions of the Democratic party, Oldham county stood firm and he was elected over his competitor by over 100 he was elected over his competitor by over 100 majority. I do not know whether Col. Speer wishes to make the race, but I know he is too good a Democrat to refuse to do so if his friends desire him to make the race. Yours, Respectfully,

LYON'S MAGNETIC POWDERS,

Will destroy Garden Insects, Cockroaches, BedBugs, Fleas Anis Moths, and all pests
of the vermin kind.

The importance of a reliable article of tids kind is inestimable. In warm weather all nature teems with these
annoying foes. This powder is the only article ever discovered which will exterminate them. A company of
botanists, from the liorticultural Society of Paris, while
anidst the ferns of Asla, observed that all insects lighting upon a certain kind of plant very soon dropped dead.
This fact was made use of to guard their night camps
from these intruders. Quantities of the plant were
brought home by Mr. E. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to resist the effect of age
and climate. Medais and Letters Patent have been obtsined from the Governments of England, France, Germany, and Russia, from the World's Fair, and numerous medical and hortleuitural colleges, and societies.

Every gardener and house-keeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Melgs, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Fleid, L. M. Pease, of the Five Points Mission, etc., etc. Judge Melgs says, "This discovery of prof. Lyon is of uational importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."

Arrangements are now made, through Messrs. Barnes & Paas, of New York, to have it sold throughout the world. Many worthless imitations are advertised. Be cautious! Yours truly, OLIVER ELDREDGE,

Washington, March 20.—Official information will go out, in to-morrow's Pacific mail, of the ratification of the ten treaties with the Indians in Oregon and Washington Territories, as this took place during the late extraordinary session of the Senate after Congress adjourned. No appropria-tion could be made to carry then, into immediate effect. It was mainly owing to the explanations of Gen. Lane that these treaties were ratified; that gentleman having convinced his brother Senators that they would tend to permanent peace. He had the effective support of Senator Gwin and Ex-Gov. Stevens in his persevering efforts. By these treaties the title to fifty millions of acres of the death of the control of the contro land will be extinguished at the cost, to this Gov-ernment, of three and a half cents per acre. On that occasion a resolution was passed, almost unanimously, providing that hereafter, when it is proposed to buy Indian lands, the Senate shall first be consulted before entering into treaty stip-

The Company has a paid explication of \$800,000, and a surplus of \$52,000. This surely is a sufficient guaranty to all who will insure. Its business is very large and reliable.
